Jon Scanlon moved, seconded by Kathi Mitchell to accept the minutes of October 20, 2008 as read. Motion passed.

Joe Christi: Mr. Christi gave a brief history of his ongoing 20 year battle with Milfoil at his marina on Lake Winnisquam. There is no known treatment for eradication, but there are methods of temporary improvement, killing back the current plants but not the roots. He has a proposal for another treatment to be applied in June, 2009 at a cost of $4,425.00. DES will contribute $1,327.50 toward that amount. Mr. Christi requested that the town help him with the costs of this project. The town has established a fund for this purpose with the Conservation Commission authorized to expend dollars.

After discussion of the treatment process used, the success rate, etc. Chuck Mitchell moved to allocate $3,000.00 from the “Capital Reserve Improving and Maintaining Lakes” fund to reimburse Mr. Christi for his expenditures in the removal of milfoil at Jay’s Marina. Ben Wadleigh seconded the motion and motion passed unanimously.
