Meeting Minutes
June 9, 2014

Members Present: Bob Hardy, Peter Fogg, Marina Sumner, Bill Lawrence, & Katherine Dawson

Visitor:

Call to Order 6:15PM:

The commissioners reviewed the sign examples sent from Kelly's sign Shop but it was difficult to discern the sight distance from the computer image. Marina had estimates from Swensons Granite for the granite posts. We will take this up again at the next meeting.

The current year expenditure report was reviewed by the Commissioners giving the electrical bills for the 132 ballfield particular scrutiny. It was reported to the Commissioners that the electric in the park was high but in actuality the bill is normal for the seasonal. The last bill reflects the use of the heater for one week of use in April. The next bill will show a full month's use without the heater.

Motion to pay Total Grounds $2040.83 by Marina. Bill gave a second. All were in favor.

Mango bill for repairing the security system at Riverfront Park in the amount of $587.50. The camera equipment is outdated and will no longer be sending the information out we will have to retrieve it. Bill made a motion to pay. Marina gave a second. All were in favor

Bill to Peter Fogg for gas for the lawn mower for $62.80 Bill made a motion to pay Marina gave A second All were in favor

Paul Rushlow has requested a $1.00 raise to help compensate him for the use of his own equipment and for his herbicide/pesticide license. Peter made a motion to give Paul a $1.00 raise. Bill made a second. All were in favor.

A reservation form for use of the 132 Ballfield by Tilton Sports Center was received and reviewed.

The suggested tree work from Chippers was reviewed. The estimate for the work that needs to be done in the Civil War Park exceeds the budgeted amount. Storm crown damage in the top of one of the large trees, which will require the use of the crane truck and a police detail, was not anticipated. The Commissioners agreed not to do the maintenance work in Riverfront Park this year since the work in the Civil War Monument Park is extensive and is need to get the trees and evergreens under control/maintenance. The portion proposed for the Island and Main Street trees will be presented to the Selectmen Thursday night for approval as they are not within the Parks Commissioners jurisdiction.

Bill had the camera signs, discussion ensued about where to put them. Katherine will see that they are installed.

Peter would like to rent a sod cutter to take sod off the berm and fix the bare spots in the field. After school gets out he would have time for the project. The ice rink area has been seeded. Bill motion to sod. Marina second. All in favor
