Town of Tilton
Board of Selectmen Meeting
September 18, 2012

Present: Chairman Pat Consentino, Sandy Plessner, Vice-Chair, Al LaPlante, and Katherine Dawson.
Others Present: Scott Davis, Roland Seymour, Lieutenant Ryan Martin

1:00 PM Chairman Consentino called an emergency meeting to order. Scott Davis told the Board that the construction of a new water line under the river cannot stop as they are in the middle of drilling under the river and if they stop, they will lose the hole that they have dug. Mr. Davis continued by saying it would cost a great amount of money if the project were stopped at the current time. The Chairman explained the reason the project was stopped was there was no flagman or police officer on duty and it was a very unsafe operation. Chairman Consentino continued by saying that the section of Rt. 3 that the water company was working on had egresses and ingresses for local businesses, pedestrian crossings, railroad crossings all on a curve in the road and for safety reasons, that required someone be there watching the operation and directing traffic especially when the machinery was in use. After much discussion, it was decided that for today, the construction site would have a vehicle with lights flashing and two flagmen to control the traffic. Lieutenant Martin received a call that an officer had said he would work the detail. Mr. Davis thanked the Board for their cooperation and left the meeting.

1:20 PM The Board reviewed several applications received by the Police Department for the position of Part Time Parking Enforcement Officer. After much discussion, the Board narrowed the number of applications to consider down to five. Lieutenant Martin thanked the Board and took the applications back to the police station for review and background checks.

2:10 PM Meeting adjourned.
