Chairman Consentino called the meeting to order at 11:30 a.m.

The purpose of the meeting was to prepare questions for the interviews of five engineering consulting firms that submitted proposals for environmental engineering consulting services for the EPA Cleanup - Ernie’s garage. The members of the interviewing committee had received scanned copies last week. Carolyn Hurst of WRTA had previously provided a spreadsheet comparing each of the tasks and the amounts as presented in the proposals.

Following discussion a list of questions was prepared and will be sent to all members of the interviewing committee.

Following the interviews, it is hoped that a recommendation can be made to the Board of Selectmen on November 8, 2012. Time is of the essence due to the condition of the building. If the building were to collapse (a heavy storm is due later today), it would become much more problematic to remove the hazardous material.
