Present:  Selectmen Patricia Consentino, Katherine Dawson, Peter Fogg, and Joseph Jesseman.
Others: Joyce Fulweiler, Town Administrator, Gayle Bestick, Administrative Assistant.

Call to Order/Roll Call:
Selectman Consentino called the meeting to order at 4:40 p.m. Selectmen Scanlon was available on telephone speaker conference.

A special meeting was called to discuss appealing the Department of Environmental Services (DES) Decision approving a permit modification allowing a solid waste tonnage increase, at the Bestway Transfer Station in Belmont, NH.

There was discussion of whether the Board would support George Condodemetraky, a Belmont resident, who is appealing the DES decision of the tonnage increase. Selectman Dawson suggested instead of appealing the decision, a case could be made on the number of items overlooked prior to the permit approval. Selectman Jesseman commented he could not support a vague appeal, he would vote no. Selectman Scanlon agreed a list of the non-conforming issues should be presented. He agreed to contact Mr. Condometraky.

After further discussion, the Board agreed to support the appeal, however; no money should be invested.

Adjournment:
With no further business to come before the Board, Sel. Consentino made a motion, seconded by Sel. Jesseman to adjourn. All in favor. Motion passed. Meeting adjourned at 5:00 p.m.
